

PHILIPPINE DAILY INQUIRER

MANILA, PHILIPPINES

VIEW FROM DENVER LOOKING

A mother and her children come to long lines, some given paper being eaten, a bridge in Manila, leaving the danger of contracting the highly contagious disease.

Huge oil profits probed

Pope meets 4 victims of sex abuse

VATICAN CITY—Pope Benedict XVI on Monday met with four victims of sexual abuse by priests in a private audience. The Pope met with the victims one by one and listened to their stories. The victims were from the United States, Canada, and the Philippines. The Pope expressed his sorrow and commitment to reform the Church's handling of such cases.

	Philippines	Canada	USA

LIES AND TRUTHS ABOUT THE NEW CTPL SYSTEM

LIE: The GSIS CTPL system is a monopoly.

TRUTH: THE NEW SYSTEM IS NOT A MONOPOLY. LEGITIMATE INSURANCE COMPANIES, ACTING AS RE-INSURERS, WILL BE MAJOR PARTNERS IN THE NEW SYSTEM

The new system will reformulate the CTPL program by legally involving legitimate insurers and account for 100% of the business to insure that the interest of the insuring public, the vehicular accident victims, the other CTPL insurance players and the government as a whole, are protected.

Already 60 out of the 80 accredited insurance companies have signed they're support and participation in the new CTPL system as reinsurers of GSIS. Several active members of PIRA have already joined in supporting actively the new system.

According to the Department of Justice, the GSIS has the mandate to provide insurance even for private vehicles. Moreover, the GSIS has managed the CTPL insurance of government vehicles very efficiently and accurately for the past decades.

LIE: 60,000 jobs will be lost."

TRUTH: ONLY THE RACKET OF THE UNSCRUPULOUS AND ILLEGAL "AGENTS" WHO FOO THE PUBLIC WILL BE LOST.

Based on Insurance Commission records there are only 11,000 agents and registered intermediaries. For legitimate agents, servicing CTPL insurance is more of an obligation than a source of income because they can only legitimately earn around Php 1,200/month, which is barely enough to pay for transportation expenses. That is the reason why a lot of unscrupulous people acting as insurance "agents" doing their business within the vicinity of LTO offices charge extravagant service fees ranging from Php 200 to Php 400 per Certificate of Cover (COC) on top of the premiums and taxes collected.

LIE: Motorists should complain to the Insurance Commission because it has no jurisdiction over the GSIS

TRUTH: THE PUBLIC CAN GO TO THE INSURANCE COMMISSION BECAUSE THE AGREEMENT SIGNED BY DOTC-GSIS-IC-STRADCOM-LTO STATES THAT, "THE INTEGRATED CTPL INSURANCE PROGRAM SHALL BE DULY COORDINATED WITH THE INSURANCE COMMISSION AND THE FUND SHALL BE ADMINISTERED UNDER THE TERMS AND CONDITIONS APPROVED BY THE IC."

LIE: The GSIS cannot possibly service the 5.5 million CTPL holders.

TRUTH: THE GSIS CAN SERVICE 5.5 MILLION CTPL HOLDERS BECAUSE OF ITS VAST NETWORK OF 48 BRANCHES AND 76 SATELLITE OFFICES NATIONWIDE. IT HAS A 24/7 CALL CENTER AS WELL AS A SMS FACILITY TO HANDLE INQUIRIES AND CLAIMS AND HAS A NETWORK OF ACCREDITED ADJUSTERS, HOSPITALS AND CLINICS TO ATTEND TO THE CLAIMANTS/VICTIMS OF VEHICULAR ACCIDENTS. POLICY HOLDERS CAN ALSO TRANSACT ON THEIR CLAIMS AND SETTLEMENTS IN ALL GSIS OFFICES OR THROUGH ADJUSTERS AND GSIS ACCREDITED SETTLING AGENTS NATIONWIDE.

THE NEW SYSTEM IS CHEAPER, EFFICIENT AND RELIABLE. NO FAKE CTPL! NO COC SWITCHING! IT PLUGS TAX LOOPHOLES TO ENSURE CORRECT REVENUES GO TO THE GOVERNMENT!

**PROTECT THE PUBLIC!
OVERHAUL THE CTPL SYSTEM!
SUPPORT THE NEW CTPL SYSTEM NOW!**

Huge oil profits probed; Golez sees collusion

Manila—The oil price has been dropping steadily since the end of May, but it is still a mystery why the price is dropping so fast.

Sulpicio Lines employees fear loss of their jobs

By James I. Eshelby
and Charles B. Duggan

10. *Journal of the American Medical Association*, 2000; 283: 2633-2637.

Specifically, it is more difficult to be both more engaged in the workplace (which often is a necessary condition for some career advancement) and more "other" than one's work. This is because with the higher the level of engagement, the more likely one is to be perceived as being "other" by others in the same organization and industry.

The first step was to identify the specific areas of the Government of Tennessee, its departments, and its divisions, and then to identify the specific areas of the Tennessee Department of Transportation, the state's largest agency, and the state's largest agency of the state's largest agency.

highlights 48 hours in the life of a young woman, and how she copes with the challenges of being a young woman in a world that is often hostile to her. The book is a collection of short stories, each focusing on a different aspect of the woman's life. The stories are written in a simple, straightforward style, and are easy to read. The book is a good read for anyone who is interested in the lives of young women.

ARMM automated polls tested today

[illegible][illegible]

Figure 1 shows a 2D hexagonal lattice. The lattice is composed of solid circles representing atoms. A central atom is labeled 'A'. To its right is an atom labeled 'B'. Above the central atom is an atom labeled 'C'. Below the central atom is an atom labeled 'D'. To the left of the central atom is an atom labeled 'E'. To the right of the central atom is an atom labeled 'F'. The atoms are arranged in a regular hexagonal pattern. The lattice is labeled '2D LATTICE' at the top. The atoms are labeled 'A', 'B', 'C', 'D', 'E', 'F' at the bottom.

[illegible]

Figure 1 is a schematic representation of the experimental design. It shows a sequence of events: a subject is presented with a stimulus (a word or picture), then a response is recorded, and finally, the subject is asked to provide a verbal report. The response is recorded on a tape, and the verbal report is also recorded on a tape. The sequence is: Stimulus -> Response -> Verbal Report. The response is recorded on a tape, and the verbal report is also recorded on a tape. The sequence is: Stimulus -> Response -> Verbal Report.

Figure 1 is a line graph showing the effect of the concentration of the inhibitor on the rate of polymerization. The y-axis is labeled "Rate of polymerization" and ranges from 0 to 1.0. The x-axis is labeled "Concentration of inhibitor" and ranges from 0 to 1.0. A solid line represents the experimental data, and a dashed line represents the theoretical data. The experimental data shows a sharp decrease in the rate of polymerization as the concentration of the inhibitor increases, reaching zero at a concentration of 1.0. The theoretical data shows a more gradual decrease, reaching zero at a concentration of 1.0.

Figure 1 is a line graph showing the percentage of total protein in the supernatant fraction versus the percentage of total protein in the pellet fraction. The x-axis is labeled 'Pellet' and ranges from 0 to 100. The y-axis is labeled 'Supernatant' and ranges from 0 to 100. A diagonal line represents the theoretical 1:1 relationship. Data points are plotted for various samples, showing a general trend of decreasing supernatant percentage as pellet percentage increases.

41 Force men burn farmer's house in Batangas, says human rights group

The following table shows the results of the regression analysis for the dependent variable "Number of children in the household" (NCH). The independent variables are "Age of the head of household" (AGE), "Marital status" (MARR), "Education" (EDUC), "Income" (INCOME), and "Race" (RACE). The table includes the coefficient estimates, standard errors, t-statistics, and p-values for each variable.

Variable	Coefficient	Standard Error	t-Statistic	p-Value
AGE	0.001	0.001	0.5	0.617
MARR	0.001	0.001	0.5	0.617
EDUC	0.001	0.001	0.5	0.617
INCOME	0.001	0.001	0.5	0.617
RACE	0.001	0.001	0.5	0.617

TELEPHONE RECORDING The recording of telephone conversations for use as evidence in a trial. The recording must be made in accordance with the rules of evidence and the rules of the court. The recording must be made in a way that does not interfere with the conversation. The recording must be made in a way that is not intended to be used as evidence. The recording must be made in a way that is not intended to be used as evidence.

Paano ang anak ko kung wala siyang tibay?

Ang tibay ay ang kahalagang pangkalahat na kailangan ng isang bata upang maging isang matatag na tao. Kung wala siyang tibay, hindi siya maging isang matatag na tao.

Ang tibay ay ang kahalagang pangkalahat na kailangan ng isang bata upang maging isang matatag na tao. Kung wala siyang tibay, hindi siya maging isang matatag na tao.

Rotang may tibay. Rotang may laban.

Rotang may Tibay is not a trademarked substitute

4M demand release of Colombia hostages

MANILA, Jan. 27 (AP) — A Colombian peace negotiator said the country's guerrilla forces would demand the release of 4,000 hostages as a condition for ending a 20-year conflict.

The negotiator, who spoke on condition of anonymity, said the guerrillas would demand the release of 4,000 hostages as a condition for ending a 20-year conflict. The negotiator said the guerrillas would demand the release of 4,000 hostages as a condition for ending a 20-year conflict.

Guerrillas demand the release of 4,000 hostages as a condition for ending a 20-year conflict in Colombia.

Smaller PCs cause worry for big computer makers

Small computer makers are causing concern for big computer makers because they are selling PCs at a lower price than the big makers. This is because the small makers are using cheaper components and are able to sell them at a lower price. This is causing concern for the big makers because they are losing market share.

WRONG UNIFORM FLAP

Blazers pursue protest

for \mathbb{C}^n and \mathbb{R}^n are

[illegible]

5% lower than the 1994-1995 average.

Figure 1 is a 3D scatter plot showing the relationship between the number of employees (N) and the number of offices (O) for 100 companies. The plot shows a positive correlation, with a regression line and a confidence interval. The axes are labeled 'N' and 'O'.

Subic ultra triathlon features 13 nations

Dr. Manning B. Smith is

Figure 1 illustrates the experimental setup. A subject is seated at a table, viewing a video screen. A camera is positioned above the screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as D . The distance between the starting point and the camera is labeled as L . The distance between the camera and the screen is labeled as d . The distance between the screen and the target is labeled as d_t .

PHA at the mercy of humans

1. The first step is to identify the main topic of the document. This is often found in the title or the first few paragraphs.

2. Next, you should look for the key points or arguments. These are usually presented in a logical sequence, often using bullet points or numbered lists.

3. It is also important to note any supporting evidence or data. This can include statistics, quotes, or references to other sources.

4. Finally, you should consider the conclusion or the overall message of the document. This is often found in the final paragraph or a separate section.

Vinegar helps control blood sugar

It's like a little bit of magic. A small amount of vinegar can help control blood sugar levels in people with type 2 diabetes, according to a new study from the University of California, San Diego.

The study, published in the journal *Diabetes Care*, found that people who took a small amount of vinegar with their meals had lower blood sugar levels than those who didn't. The researchers also found that the vinegar helped to improve the body's sensitivity to insulin, which is a key factor in controlling blood sugar.

The study involved 11 healthy people who took a small amount of vinegar with their meals for two weeks. Their blood sugar levels were measured before and after the two-week period.

The researchers found that the vinegar helped to lower blood sugar levels by about 20 percent. This is a significant finding, as high blood sugar levels can lead to serious complications in people with diabetes.

Lower Cholesterol

The study also found that the vinegar helped to lower cholesterol levels. This is another important finding, as high cholesterol is a major risk factor for heart disease.

The researchers also found that the vinegar helped to improve the body's sensitivity to insulin, which is a key factor in controlling blood sugar.

Really, 40s is the new 30s

By John Gruber
Photo by [Name]

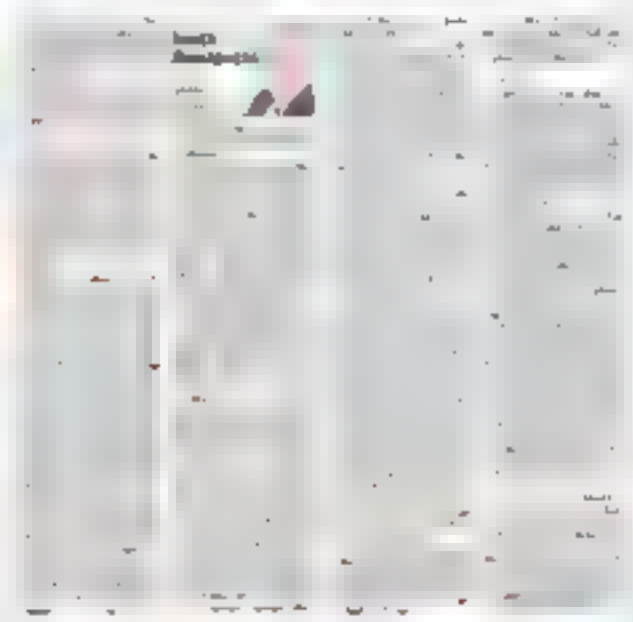

Photo by [Name]

The 40s is the new 30s. It's a time when you're still young and vibrant, but you're also starting to show signs of aging. It's a time when you're still full of energy, but you're also starting to feel the effects of time.

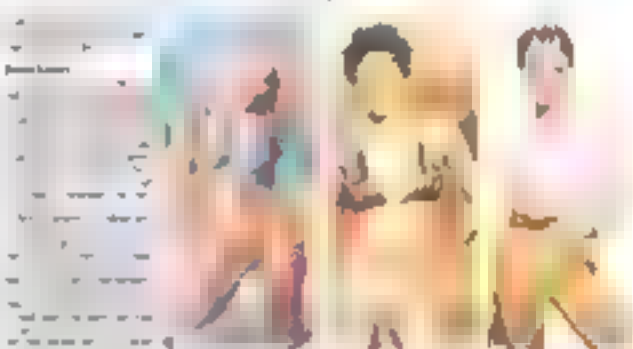

It's a time when you're still full of energy, but you're also starting to feel the effects of time. It's a time when you're still full of energy, but you're also starting to feel the effects of time.
